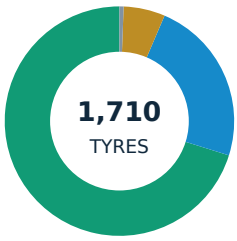
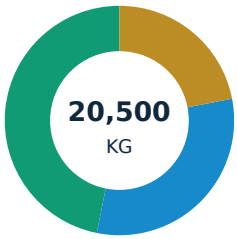
Tyre classifications



Passenger	**1,200**	**(70.2%)**
SUV / 4x4	**400**	**(23.4%)**
Truck	**100**	**(5.8%)**
Unclassified	**10**	**(0.6%)**

Passenger: 8 kg / 1 EPU. SUV / 4x4: 16 kg / 2 EPU. Truck: 45 kg / 5 EPU. Unclassified tyres remain in the total and have no assigned weight. Truck figures require truck-labelled count data.

Estimated weight by tyre class



Passenger	**9,600**	**(46.8%)**
SUV / 4x4	**6,400**	**(31.2%)**
Truck	**4,500**	**(22.0%)**
Unclassified	**0**	**(0.0%)**

Weight share uses kilograms, not tyre counts. Unclassified tyres have no assigned weight and are excluded. Passenger: 8 kg; SUV / 4x4: 16 kg; truck: 45 kg per tyre.

No-count review and supervisor responses

1 count gap of 10+ minutes (105.5 minutes combined). A count gap does not establish conveyor stoppage or camera availability.

Count gap starts (Brisbane)	Ends	Minutes
28 Oct 15:19:29	28 Oct 17:05:00	105.5

No supervisor incident records for this period.

Foreign-object alerts - trial model

0 recorded live OAK alerts. Supported trial classes: wheel rim and person. Test alerts are excluded; zero records do not establish that monitoring was enabled.

Recorded footage and audit trail

0 matching timestamped MP4 files found in the recording folder. Use the report times to review the corresponding footage; file presence does not verify continuous coverage.

Recording references: None found.

This report uses stored production counts. Camera uptime is not measured by this report. Review labels and recorded footage to support ongoing model improvements.
